Steve Yentis : A View from the Head End: Medical cartoons to ease the pain before purchasing it in order to gage whether or not it would be worth my time, and all praised A View from the Head End: Medical cartoons to ease the pain:

Great for anyone who wants a humorous glimpse behind the mysterious doors of the operating rooms of America.1 of 1 people found the following review helpful. humorous indeedBy Kindle CustomerAnyone in the OR area will relate. Some of the British references I didn't "get".

This collection of drawings represents a wry look at life in the operating theatre, wards and clinic, as seen from the Head End, which is, of course, by far the more important end. Appealing to anyone who has ever worked in a hospital, this book will help pass the time during those long periods of inactivity between audit meetings. Exam candidates in particular will find it contributes absolutely nothing to their chances of success.
