It is missing the soap opera of Grey's Anatomy and the evil trial and error of House, but it is a read that will give you a peek into the life of an ambulance attendant in London. I am sure it isn't too different here in the states. It is based on a blog:[...]I think this would make a great TV series. Now I am off to read the next, More Blood, etc.0 of 0 people found the following review helpful. And Now For Something DifferentBy Red L. PatThis is a true story of an English ambulance worker. It was a quick read. I enjoy medical novels so this was enjoyable to me. It had a little bit of everything. When you are between genres, or need a change of pace---try this.1 of 2 people found the following review helpful. Blood, sweat, vomit, tears, urine and tea!By AlisonBlood, Sweat and Tea is a book based on the blog "Random Acts of Reality" by a London, UK, based emergency medical technician (EMT), Tom Reynolds (a pseudonym, Tom has now revealed himself to be Brian Kellett). I'm an occasional visitor to Reynold's blog and always found him to be interesting, honest and well worth reading. This first book (there is now a second book called More Blood, More Sweat and Another Cup of Tea) is a collection of some of Reynolds favourite posts from his blog, published in 2006.While it is obviously a book of blog postings, it does hang together as a coherent collection and is very readable. I could spend much longer reading his posts in this format than I could spend reading a screen for.His posts are not sugar-coated and show what life is like in the ambulance service. If I was Reynolds I would be very frustrated in having to put up with the non-emergency 999 calls that waste the time of already busy EMTs. He also talks touchingly about some of the tragic calls that he also is involved with.All-in-all a very interesting read - everyone should read a copy, especially those people who call 999 when they should be visiting their GP or taking themselves to AE!

An alluring mix of humor, bravery, cynicism, and compassion." --London Daily Telegraph It's the stuff of Grey's Anatomy, House, and ER--only these events aren't unfolding on a Hollywood soundstage. Have you ever wondered what's going on inside the ambulance screaming past you during your rush-hour commute? Since 2003, Tom Reynolds (writing under an alias so as not to get sacked from his job), has kept a blog where he chronicles the day-in, day-out realities of his life on the job as an EMT with the London Ambulance Service. By turns both poignant and profound, Reynolds's writing captures the very essence of life and death. From the mundane to the surreal, from the heartwarming to the cynical, from the calm to the frenetic, more than 300 entries from his popular blog at [randomreality.blogware.com](http://randomreality.blogware.com) are included in the book. Dear Mr. Alcoholic: Would you mind awfully not swearing at me, taking a swing at me, or exposing yourself to me? I have quite enough abuse from the nondrunks out there. . . . Still, at least your fists are easy to dodge, and if I stop holding you up, you fall over. The author's hugely popular blog, Random Acts of Reality, has been named Medgadget Best Medical Blog and Best Literary Medical Blog.

One of the most gripping blogs around - The GuardianAbout the AuthorOn July 22, 2003, an emergency medical technician living in London began writing a blog under the pseudonym Tom Reynolds. One mention by a writer for the "Guardian" and that blog has changed his life with more people coming to know him as Tom Reynolds than as Brian Kellett.
