Buy the book!!By DKGI've been following Ilana on social media and my rugrats feel like they know Mazzy and Harlow through watching them on snapchat videos, so it was a given that I needed to buy this book! It was so nice to read about the whole parenting experience from a real perspective! How refreshing it is to feel like you're doing something right instead of feeling like a failure because you can't compare to the mom's you often see on social media. I had lots of laughs and relatable moments and the kids (and myself) loved seeing all of the photos included!4 of 4 people found the following review helpful. Love love love this bookBy L. GayeskiLove love love this book. Ilana Wiles is hilarious, and I have followed her for years as Mommy Shorts. Parenting is hard, but a lot of times, it makes you laugh until it hurts. I love how Ilana always celebrates the less glamorous side of parenting and makes me laugh when sometimes I want to cry! Parenting is a crazy ride and I love how Ilana makes me appreciate the ups and downs . . . and reminds me that I don't have to be a

perfect parent with a perfect life to be a darn good mom. 5 of 5 people found the following review helpful. it is hard to feel like you're even doing an "average" job

This book is hilarious and helpful! As a mom of twins, it is hard to feel like you're even doing an "average" job. Mommy Shorts shares the humorous reality of raising kids. It's a must buy for new parents!

Ilana Wiles is not a good mother. She's not a bad mother either. Like most of us, she's normal. From the creator of the wildly popular blog Mommy Shorts comes Ilana Wiles's first humor book on remarkably average parenting. If you want solid advice about raising kids, this book is not for you. If you want to wallow in your own misery about how having kids is AWFUL, this book is not for you. This book pays homage to the every-parent and suggests that they are the people having the best child-rearing experience of all. Using Wiles's signature infographics and photographs to illustrate her personal and hilarious essays on motherhood, the book is an honest guide that celebrates the fun of being a mom.

This is everything I absolutely love about Mommy Shorts in one perfect little package. It's hilarious and comforting and a must have for every mommy you know!!
