N. J Groce : The Musician's Joke Book: Knowing the Score before purchasing it in order to gage whether or not it would be worth my time, and all praised The Musician's Joke Book: Knowing the Score:

0 of 0 people found the following review helpful. YawnBy Earle WilliamsI thought this book would give me material to use as a musician. I was, to put it bluntly, wrong!0 of 1 people found the following review helpful. i really should not review this bookBy Lee E. Blasingamei got it as a Christmas present for a coworker at work and the day it came in, she was standing by me as i opened it on her birthday, so i just handed it over, i never got to see it and read any of it. i was so sorry for that. my mom is also a musician and i still want a copy of this book for her. so i will get it again this year but i have until november for my mom's birthday. i did buy another musicians joke book and it is very enjoyable, not great. i think the writer is more into insulting musicians than in seeing what's so funny about making music as a career. and this book was more cartoons than the second one, so i could make copies to put on the refrigerator for mom to see with her coffee. i think she would enjoy a music joke first thing in the morning to start her day before she gets too serious.1 of 2 people found the following review helpful. Great source of music jokesBy Jill ClymerI've had this book several years now, and it's quite a fun and interesting source for musical wisdom and jokes. I'm a violist, so it's of course a somewhat twisted joy to find that a third of the book is dedicated to the scores and scores of derisive viola jokes that are out there. Any musician would get a kick out of reading this and springing a joke or two on his pals. Not a single instrument or musician is spared the scathing blows of this witty and sarcastic joke collection. The book is so thorough that it covers all the music jokes I had ever heard plus many, many more. The only disadvantage then is that when a buddy tells you a music joke, it's likely that you'll already know it! But don't let that stop you from picking up a copy for yourself or a musical friend.
